

# HG Series Dryer Automatic Gas Heating Dryer

## HG Series Dryer Automatic Gas Heating Dryer

? Gas dryer is the company's newly developed energy-saving products, that is easy to use, the use of a wide range of energy conservation, its outstanding features are:

High thermal efficiency, easy to use, the use of gas heating, low energy consumption, heat exchange fast, high heat utilization.

? Roll the high-density vent holes to ensure that sufficient heat through the grass weaving, making the grass in a short period of time to be fully dried.

? The use of large diameter loading doors, loading and unloading clothing convenient, safe interlock device to ensure that the door is open to open the state of the brake machine start.

? Plush collector with drawer structure, pull out to clean, large area through the hole to ensure that the duct of the smooth, large diameter fan, not easy to plug plush, all in order to ensure the drying fast.

? Using two V-belt deceleration drive, low noise, small vibration, long working life, easy maintenance.

? Full computer control can accurately set the drying time and drying temperature, the computer controller with touch-button design, flexible operation and reliable, computer-controlled embedded installation design, improve the machine's ornamental.

? This product is suitable for all kinds of needle textile fast and efficient drying, especially for no steam source but a gas source of the laundry, and to meet the textile printing and dyeing and clothing on the finishing of woven and clothing requirements, with a wide range of applications Sex.

Model	Unit	HG-15R	HG-20R	HG-30R	HG-50R	HG-70R	HG-100R
Capacity	Kg	15	20	30	50	70	100
Drum Size	mm	Ø750×670	Ø890×700	Ø980×840	Ø1070×1000	Ø1200×1000	Ø1500×1100
Drying Time	min	40-60	40-60	40-60	40-60	40-60	40-60
