# SXT Series Tilting Automatic Washing Machine

## SXT Series Tilt Automatic Washing Machine

? All Suspended Shocking Absorbing System, successfully and efficiently reduce the shocking, make washing steps reliable and well balanced.

? The whole unit is combined inner drums, outer drums, rotatable lifting bearing system, shock absorbing spring, shock reducer and lifting cylinder and so on.

? Intelligent programmable computer control system with big screen, freely programmable, operator could set flexible.

? For high extraction, there are four speeds depending on different materials. The speed regulating system is controlled by LS inverter, washing speed and extracting can raise promptly, protect the garments and other cloth.

Model	Unit	SXT-100F	SXT-120F	SXT-150F
Rated Capacity	kg	100	120	150
Washing Drum Dimension	mm	Φ1200×820	Φ1300×830	Φ1470×880
Motor Power	kw	7.5	11, 1440r/min	18.5, 1440r/min
Inverter Power	kw	11	15	20
Inlet Of Water	inch	2	2	3
Drain Pipe	mm		150	150
Power Consumption Per Cycle	kw	5.5	8	14
Steam Consumption Per Cycle	kg	< =90	< =160	< =200
Water Consumption	l/kg	< =15	< =15	< =15
Dimension (L*W*H)	mm	1750×1640×2132	2000×2200×2200	2500×2280×2280
Weight	kg	3100	4300	5000
